

BUILT ON EXCELLENCE

2017 ABC North Alabama Excellence in Construction Awards
Thursday, Nov. 30 • The Jackson Center, Huntsville

Honoring the **skill & creativity** of the entire team – contractor, owner, architect & engineer – responsible for an outstanding merit shop construction project.

ABC's Excellence in Construction Awards program is consistently the number one construction competition in the nation. It uniquely acknowledges outstanding projects and the entire project team—the contractor, designers and owner. The North Alabama Chapter will recognize the best of the best at the Jackson Center on Thursday, Nov. 30, 2017. Everyone is encouraged to attend this premier event to celebrate the tremendous accomplishments of our members and their teams. Each year, sponsors of EIC help make it possible to celebrate these accomplishments with style, but more importantly they make it possible to continue our efforts in workforce development through scholarships and special training for future EIC recipients. Becoming a sponsor for the Excellence in Construction Awards offers many benefits, one of which is the chance to market your business to a large number of ABC members and guests as you congratulate their success.
